2. SALES TO CONSUMERS

The schedule of prices listed on Page 2, effective **September 2, 2012** shall be the minimum wholesale and retail prices to be charged for milk distributed within Maine for fluid consumption wherever produced, and shall hold until further revision by the Commission.

BASIS STATEMENT

Pursuant to 5 M.R.S.A., Section 8054 and 7 M.R.S.A., Section 2954 the Maine Milk Commission conducted an emergency rulemaking hearing to determine whether or not the minimum price payable to producers for milk should be immediately changed due to developments in milk pricing in southern New England.

Federal Order One Northeast Market Administrator announced a Class III price of **\$16.68/cwt.** and a Class IV price of **\$14.45/cwt.** for **July 2012**

The Class II price for **July 2012** is **\$14.51/cwt.** as announced by the Federal Order One Northeast Market Administrator.

The Commission, in setting their minimum prices, recognized the Federal Order Class I price of **\$20.84/cwt. plus \$1.48/cwt. for cost of production and an over-order premium of \$1.53/cwt. as being prevailing in southern New England based on the evidence presented at the Commission hearing on August 23, 2012 and therefore should be passed on in minimum prices effective September 2, 2012. These prices also include a handling fee of \$0.93/cwt.**

The schedule of prices listed herein reflects the latest Class I, Class II, Class III and Class IV prices plus the minimum dealer, producer and retail margins adopted by the Commission's Orders (DM) Dealer Margins, (PM) Producer Margins, and (RM) Retail Margins. The Class I prices reflect a Processor Assessment of **\$.20/cwt.** as authorized by Commission Order #93-MPF. Any change in prices at any level from last month reflects the action taken today by the Commission for Class I, Class II, Class III and Class IV and Butterfat prices.
